

Protecting your innovation:

the mission of our Life Sciences and Chemistry department.

You have an innovation?

You have identified a new biomarker, a new immunotherapy, a new diagnostic method, a new product, a new process?

Are you creating a new brand, a new logo?

You are at the beginning of an idea?

Protect them.

Intellectual property is a lever

For your fundraising.

For the valuation of your company.

For your negotiations.

To strengthen your position on national and international markets.

The first meeting is free of charge.

Meet one of our experts.
Our first exchange is offered to you.
